Einstein Postdoctoral Fellow at the Jet Propulsion Laboratory/Caltech working on several data analysis tasks for pulsar timing arrays. Passionate about data analysis/science, machine learning, and data visualization. Have leadership experience working in large and small collaborations.

Education

University of Wisconsin Milwaukee

PhD (Physics)

Milwaukee, WI

July 2011–June 2014

West Virginia University

PhD student in Physics

Morgantown, WV

August 2009–June 2011

West Virginia University

B.S. in Physics, Mathematics, Astronomy minor

Morgantown, WV

January 2007–June 2009

Shepherd University

B.S. student in Mathematics

Shepherdstown, WV

August 2004–January 2006

Doctoral Thesis

Title: *Searching for Gravitational Waves Using Pulsar Timing Arrays*

Advisor: Dr. Xavier Siemens

Description: This thesis details several new frequentist and Bayesian detection and characterization schemes for gravitational waves using pulsar timing arrays. These methods were applied to several real and synthetic datasets to produce stringent constraints on gravitational waves from supermassive black hole binaries.

Professional Experience

Research Experience.....

NASA Jet Propulsion Laboratory

Einstein Postdoctoral Fellow

Pasadena, CA

September 2014–Present

California Institute of Technology

Visiting scholar (TAPIR group)

Pasadena, CA

September 2014–Present

University of Wisconsin Milwaukee

Graduate Research Assistant, Advisor: Dr. Xavier Siemens

Milwaukee, WI

July 2011–June 2014

West Virginia University

Graduate Research Assistant, Advisor: Dr. Maura McLaughlin

Morgantown, WV

August 2009–June 2011

West Virginia University

Undergraduate Research Assistant, Advisor: Dr. Earl Scime

Morgantown, WV

June 2008–June 2009

Shepherd University

Undergraduate Research Assistant, Advisor: Dr. Jason Best

Shepherdstown, WV

August 2005–January 2006

Teaching Experience.....

California Institute of Technology <i>Co-organizer of NANOGrav student workshop</i>	Pasadena, CA <i>March 2016</i>
California Institute of Technology <i>Co-organizer of NANOGrav detection group workshop</i>	Pasadena, CA <i>September 2015</i>
West Virginia University <i>Tutor (calculus based introductory physics)</i>	Morgantown, WV <i>January 2010–August 2010</i>
West Virginia University <i>Lab Instructor (calculus based introductory physics)</i>	Morgantown, WV <i>January 2008–August 2010</i>
West Virginia University <i>Lab Instructor (algebra based introductory physics)</i>	Morgantown, WV <i>September 2007–December 2007</i>

Awards

2015: Chair of NANOGrav Gravitational Wave Detection Working Group
2014: Einstein Fellowship (JPL/Caltech)
2014: Papastamatiou Scholarship (UWM)
2013: Distinguished Dissertation Fellowship (UWM)
2013: NASA Wisconsin Space Grant Consortium Fellowship
2012: Blue Apple Award (22nd Midwest Relativity Meeting)
2012: NASA Wisconsin Space Grant Consortium Fellowship
2011: Best Graduate Student Oral Presentation (West Virginia Academy of Science)
2009: Outstanding Physics Senior Award (WVU)
2008: Reddy Scholarship for Academic Excellence (WVU)
2008: Eberly College of Arts and Sciences Award for Academic Excellence (WVU)

Computer skills

OS: OSX, Linux/Unix, Windows
Programming: Python, C/C++, Fortran, Matlab, Mathematica
Typography: L^AT_EX, Microsoft Office, Pages, OpenOffice, Keynote
Data Science: Scikit-learn, Pandas

Professional Affiliations

American Physical Society: Member
American Astronomical Society: Member
North American Nanohertz Observatory for Gravitational waves (NANOGrav): Full member
International Pulsar Timing Array (IPTA): Member

Recent presentations

Invited Talks.....

April 2016: *PTA searches for Gravitational Waves: Astrophysics with non-detections*, University of Wisconsin Milwaukee CGCA Seminar, Milwaukee WI

April 2016: *Astrophysics with Pulsar Timing Arrays*, Northwestern University Lunch Seminar, Evanston, IL

November 2014: *Gravitational Wave Science Using Pulsar Timing Arrays*, Embry-Riddle University Colloquium, Prescott, AZ

October 2014: *Pulsar Timing Arrays: A Galactic Scale Gravitational Wave Detector*, Montana State Physics Department Colloquium, Bozeman, MT

October 2014: *Data Analysis for Pulsar Timing Arrays*, Montana State Physics Department Seminar, Bozeman, MT

June 2014: *The IPTA continuous wave search project.*, IPTA Meeting, Banff, Canada

July 2013: *Searching for Gravitational Waves using Pulsar Timing Arrays*, Cambridge University Seminar, Cambridge, UK

June 2013: *Single Source Detection and Upper Limits with IPTA data*, IPTA Meeting, Krabi Beach, Thailand

June 2012: *An Overview of Single-Source Detection Algorithms*, IPTA Meeting, Kiama, Australia

Contributed Talks.....

June 2016: *Trans-dimensional pulsar timing data analysis*, IPTA Meeting, Stellenbosch, South Africa

April 2016: *Trans-dimensional signal modeling in PTA data*, APS April Meeting, Salt Lake City, UT

August 2015: *Constraining Supermassive Black Hole Binary Dynamics Using Pulsar Timing Data*, IAU Meeting, Honolulu, HI

April 2015: *Preliminary NANOGrav limits on the isotropic stochastic GWB from the 9-year data release*, APS April Meeting, Baltimore, MD

January 2015: *Searching for GWs using pulsar timing arrays*, AAS Meeting, Seattle, WA

April 2014: *NANOGrav Limits on Gravitational Waves from Individual Supermassive Black Hole Binaries in Circular Orbits*, APS April Meeting, Savannah, GA

January 2014: *I get by with a little help from my friends: Enhancing PTA sensitivity to GWs using EM counterparts*, AAS Meeting, Washington DC

October 2013: *Gravitational Wave Detection with Pulsar Timing Arrays*, CaJAGWR Seminar Caltech, Pasadena, CA

October 2013: *Gravitational Wave Detection with Pulsar Timing Arrays*, JPL Seminar, Pasadena, CA

August 2013: *Searching for Gravitational Waves using Pulsar Timing Arrays*, Wisconsin Space Grant Consortium Conference, Milwaukee, WI

July 2013: *Continuous Gravitational Wave Search Methods and Results from PTAs*, 10th Edoardo Amaldi Conference on Gravitational Waves, Warsaw, Poland

January 2013: *When Will We Detect GWs?*, Physical Applications of Millisecond Pulsars, Aspen, CO

January 2013: *Gravitational Wave Searches with Pulsar Timing Data*, AAS Meeting, Long Beach, CA

September 2012: *Gravitational Wave Searches with Pulsar Timing Arrays*, 22nd Midwest Relativity Meeting, Chicago, IL

August 2012: *Gravitational Wave Searches with Pulsar Timing Data*, IAU Meeting, Beijing, China

November 2011: *Detection Methods for Continuous Gravitational Waves Using Pulsar Timing Arrays*, 23rd Midwest Relativity Meeting, Urbana, IL

June 2011: *Detection of Continuous Gravitational Waves with Pulsar Timing Arrays*, IPTA Meeting, Snowshoe, WV

Posters.....

January 2012: *Bayesian Methods for Covariance Estimation of Pulsar Timing Residuals*, AAS Meeting, Austin, TX

July 2011: *Detection Methods for Continuous Gravitational Waves Using Pulsar Timing Arrays*, 9th Edoardo Amaldi Conference on Gravitational Waves, Cardiff, Wales

January 2011: *Continuous Gravitational Wave Searches in Pulsar Timing Data*, AAS Meeting, Seattle, WA

June 2010: *The impact of a stochastic gravitational-wave background on pulsar timing parameters*, IPTA Meeting, Leiden, Netherlands

November 2008: *A magneto-optic probe for magnetic fluctuation measurements*, 0th Annual Meeting of the Division of Plasma Physics (DPP), Dallas Texas
